## WORK EXPERIENCE

### Multimedia Designer // 2011 - Current

Responsible for all web design projects including company website, landing pages, emails and client portals. In addition I am responsible for all marketing materials, including ebooks, flyers, trade show booths, sales sheets, infographics, greeting cards, reports, business cards, t-shirts and more.

### Web Graphic Design Freelancer // 1998 – 2011

I provided web & graphic design services for small business clients. My services included Wordpress template design and development, company logos, brochures, business cards, and product photography.

### Web Producer Consultant // 2001 - 2011

I was responsible for design and development of intranet sites, including logo designs and image processing, development of web-based database applications, publishing content for all Americas partners, designing, developing and publishing newsletters, training of new users and technical support for partners and employees nationally.

### Software Analyst // 2001

I was responsible for functional, reliability and performance testing of both client and server software in a multi-platform environment, communicating bugs and issues to QA team and developers, recording, tracking and reporting of deviant software and PDA behavior, and isolating and demonstrate deviant software behavior.
